I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Cynthia C. Wilson

COMMENTS: I have been receiving individually compounded medication to treat a hormonal deficiency for the past 3-4 years. This medication comes from an out-of-state pharmacy. I trust this company and the relationship they have with my physician to provide the exact medication for my specific needs. I feel very strongly that it should be my choice with the help of my physician to decide which company can best meet my needs.
The proposed mou indicated above will not only limit my freedom of choice but could also have a detrimental effect on my health. Thank you for your consideration of this opinion. — Cynthia C. Wilson
